

Truffle Popcorn

This is a simple but sophisticated snack that's also a great bite to serve at cocktail parties. Our kids love it, too. They take bags of it with them for snacking at school and after.

SERVES 6

Pop the kernels using a hot-air popper. Transfer the popcorn to a medium bowl, add the salt and oils, and toss. Serve immediately, or transfer to small containers.

- ½ cup popcorn kernels
- ¼ teaspoon truffle salt or kosher salt
- 2 teaspoons extra-virgin olive oil
- 2 teaspoons white truffle oil, or more extra-virgin olive oil

Make your own microwaveable popcorn: Place ½ cup popcorn kernels in an untreated brown or white lunch-size paper bag. Fold over the top two times (about ½ inch at each fold). Place in a microwave with the folded edge placed down. Cook on microwave popcorn setting.
